

Hi,

Please leave the no-call list AS IS in Wisconsin. Most calls I have recieved before the law was put into affect were scams that prey on the elderly. I like the peace and quite we enjoy now with the current law in place. If the banks want to make more money from credit cards they can send their bull out by using the US Postal Service that way I can just throw it in the trash and not have to put up with a rude high pressure sales pitch over the phone at supper time. My phone belongs to me, I pay the bill and I do not want the jackels to have the right to call me. Thank You.
